LUCKY STIFF BLACKJACK

Lucky Stiff is a Blackjack based game that offers an optional wager betting that the player will receive a blackjack or a stiff hand on the first two cards. A stiff hand is any hard total of 12 through 16 on the player's first two cards. After the initial deal, the Lucky Stiff wager wins immediately if the player gets a blackjack or a stiff pair of 66, 77, or 88 regardless of the dealer's hand. A player qualifies to win if they get any unpaired stiff hand.

If the player's hand beats the dealer's hand with an unpaired stiff hand, the player's Lucky Stiff wager wins unless the dealer has a blackjack. If the player's hand loses to the dealer's hand on regular blackjack, the player's Lucky Stiff wager loses. If the player's hand pushes with the dealer's hand on regular blackjack, the player's Lucky stiff wager will push.

LUCKY STIFF EXCEPTIONS TO BLACKJACK

1. The rules for Lucky Stiff are the same as for Blackjack, except that:
 - A. If a player has a stiff pair of 6-6, 7-7, or 8-8, or a blackjack with their first two cards, the player's Lucky Stiff wager instantly wins.
 - B. If the player's hand beats the dealer's hand with an unpaired stiff hand, the player's Lucky Stiff wager wins unless the dealer has a blackjack.
 - C. If the player's hand pushes on regular blackjack, the player's Lucky stiff wager pushes.

Side wagers are prohibited.
