# BLUES BANDS

## 6PM - 9PM

### BLUES

Whether or not you like the blues or have really been exposed to it, there is no denying that it is a cool and sultry genre of music. The melodic sophistication of the blues can be both simple and intelligent with a bit of pep, evoking a broad spectrum of emotion. The talented musicians that create and perform the blues have honed their craft, in traditional and non-traditional senses.

### BREWS

This is another craft that has such a high appreciation for those who enjoy it. Various styles of beers and flavor profiles speak to the artistry of those who craft beer. Whether domestic, imported, within 30 miles or another continent, there are so many styles, flavors and influences that keep the selections exciting, not to mention dang tasty.

### BBQ

Come early and enjoy a meal that is equally sophisticated, simple and creative. We have crafted our smoked BBQ, seasoning all our own proteins and smoking them in-house. The food will provide nourishment for your body, as the blues enlighten your soul.
